

Plate CXII (P112)

Frontal section through the posterior third of the hippocampal gyrus and dentate gyrus, similar location, however, from a different brain than the section in **P108**. *TF* Fusiform area • Area fusiformis [EK 87]. *TH(a)* (Agranular) temporohippocampal area • Area temporohippocampica (agranularis) [EK 89]. *HD*_(1, 2, 3) Presubicular area granulosa (limitans, middle, glomerular) • Area praesubicularis granulosa (limitans [EK 100], media [EK 101], glome-

rulosa [EK 102]). *HE*_(1 α , 1 β , 2) Pyramidal area (glomerular subicular, subicular simplex, of Ammon's horn) • Area pyramidalis (subiculi glomerulosa [EK 103], subiculi simplex [EK 104], ammonica [EK 105]). *HF* Area of fascia dentata • Area dentata [EK 107]. Linear magnification $\times 25$. Brain 3.
