The book series

Pediatric and Adolescent Medicine

Series Editors:

Branski, D. (Jerusalem);

Kiess, W. (Leipzig)

ISSN 1017-5989

This series deals with rapidly evolving pediatric subspecialties such as perinatal medicine, pediatric endocrinology, immunology, neurology and cardiology. The individual volumes not only highlight recent advances in a particular area, but also provide a comprehensive overview of new trends in monitoring child development and subsequent adult health. The series aims to inform both the general practitioner and the hospital physician about current theoretical and practical developments in pediatric and adolescent medicine.
