

Diabetes mellitus is one of the most frequent chronic diseases affecting children and adolescents. The number of young children being diagnosed with type 1 diabetes is increasing worldwide and an epidemic of type 2 diabetes already at a young age is being observed in most societies around the world. In this book, leading experts from the USA, Europe and Israel provide a state-of-the-art summary of today's knowledge in the field of pediatric and adolescent diabetes. A number of excellent chapters deliver insight into the basic understanding of which factors contribute to or prevent the development of diabetes in young people. Other contributions provide tools for the clinician to manage the care of the child and adolescent with diabetes. In addition, knowledge from the latest scientific studies on the molecular biology of diabetes is also presented. Providing a summary of the most recent scientific discoveries related to pediatric and adolescent diabetes, this volume will be of special interest to pediatricians, endocrinologists and health care specialists who work with children suffering from the disease.

Fields of Interest:
Pediatrics; Endocrinology; Metabolism; Diabetes, Genetics, Nutrition, General Medicine

The latest on the prevention, pathogenesis, diagnosis and management of this complex disease

Diabetes in Childhood and Adolescence

Editors
 Francesco Chiarelli,
 Knut Dahl-Jørgensen,
 Wieland Kiess

Contents

Preface

Etiopathogenetic Aspects of Type 1 Diabetes
 Knip, M.

Susceptibility to Type 1 Diabetes: Genes and Mechanisms
 Contu, D.; Cucca, F.

Autoimmunity in Type 1 Diabetes mellitus
 Achenbach, P.; Ziegler, A.-G.

Neonatal Diabetes mellitus
 Polak, M.; Shield, J.

Diagnosis and Management of MODY in a Pediatric Setting
 Njølstad, P.R.; Molven, A.; Søvik, O.

Diabetic Ketoacidosis
 Brink, S.J.

Insulin Treatment
 Kapellen, T.M.; Galler, A.; Kiess, W.

Medical Nutrition Therapy of Children and Adolescents with Diabetes
 Virtanen, S.M.

Continuous Subcutaneous Insulin Infusion in Childhood and Adolescence
 Phillip, M.; Weintrob, N.; Shalitin, S.

Quality Management in Pediatric Diabetology
 Holl, R.W.; Grabert, M.; Krause, U.; Schweiggert, F.

Sports and Physical Activity in Children and Adolescents with Type 1 Diabetes mellitus
 Raile, K.; Galler, A.; Kapellen, T.M.; Noelle, V.; Kiess, W.

Invasive and Noninvasive Means of Diabetes Self-Management
 Deiss, D.; Hartmann, R.; Kordonouri, O.

Adolescence
 Dunger, D.B.; Acerini, C.L.; Ahmed, M.L.

Diabetic Nephropathy in Children and Adolescents
 Chiarelli, F.; Santilli, F.

Diabetic Autonomic and Peripheral Neuropathy
 Donaghue, K.C.; Al-Jasser, A.; Maguire, A.

Macrovascular Disease
 Dahl-Jørgensen, K.; Larsen, J.R.

Hypoglycemia in Children and Adolescents with Type 1 Diabetes
 Blasetti, A.; Verrotti, A.; de Michele, G.; Chiarelli, F.

Diabetic Retinopathy in Children and Adolescents with Type 1 Diabetes
 Bittner, C.; Kordonouri, O.; Danne, T.

Complications and Consequences
 Kapellen, T.M.; Galler, A.; Raile, K.; Kiess, W.

Type 2 Diabetes mellitus in Childhood
 Piscopo, M.A.; Rigamonti, A.; Chiesa, G.B.; Bettini, S.; Azzinari, A.; Bonfanti, R.; Viscardi, M.; Meschi, F.; Chiumello, G.

Beta-Cell Function Replacement by Islet Transplantation and Gene Therapy
 Falqui, L.

KARGER

A problem-oriented series aimed at both the general practitioner and the hospital physician

Series Editors:
Branski, D. (Jerusalem);
Kiess, W. (Leipzig)
ISSN 1017-5989

This series deals with rapidly evolving pediatric subspecialties such as perinatal medicine, pediatric endocrinology, immunology, neurology and cardiology. The individual volumes not only highlight recent advances in a particular area, but also provide a comprehensive overview of new trends in monitoring child development and subsequent adult health. The series aims to inform both the general practitioner and the hospital physician about current theoretical and practical developments in pediatric and adolescent medicine.

Volumes 1-8 available.
Please visit karger.com/pam for further information.

KARGER

Also in this series

Obesity in Childhood and Adolescent

Contents

Preface

Kiess, W.; Marcus, C.; Wabitsch, M.

Defining Childhood Obesity

Lahti-Koski, M.; Gill, T.

Body Composition Measurements

Ellis, K.J.; Denzer, C.

Examination and Diagnostic Procedure

Wabitsch, M.

Epidemiology of Obesity in Childhood and Adolescence

Ege, M.J.; von Kries, R.

Obesity Research and the Physiology of Energy Homeostasis

Ristow, M.; Tschöp, M.H.

Genetic Aspects

Hebebrand, J.; Wermter, A.; Hinney, A.

Role of Environmental Factors in Childhood Obesity

Tauber, M.; Jouret, B.

Nutrition

Czerwinski-Mast, M.; Müller, M.J.

Physical Activity in Obese Children

Chiarelli, F.; Blasetti, A.; Verrotti, A.

Some Psychological Viewpoints on Obesity

Butor, P.M.

Musculoskeletal Consequences of Obesity in Youth

Günther, K.-P.

Lipids and Lipoproteins in Childhood Obesity

Zwiauer, K.

Childhood Obesity and Coronary Heart Disease

Freedman, D.S.

Type 2 Diabetes mellitus in Children and Adolescents:

The European Perspective

Blüher, S.; Kiess, W.; Böttner, A.; Raile, K.; Kapellen, T.; Blüher, M.

Type 2 Diabetes mellitus in Children and Adolescents:

The New Epidemic

Saenger, P.

Multidisciplinary Management of Obesity in Children and Adolescents – Why and How Should It Be Achieved?

Kiess, W.; Raile, K.; Kapellen, T.; Pfaeffle, R.; Keller, E.; Blüher, S.; Böttner, A.

Bariatric Surgery

Marcus, C.

Pharmacological Treatment of Childhood Obesity

Marcus, C.

Transfer into Adulthood

Hauner, H.

Health Economics of Overweight and Obesity in Childhood

Böhler, T.

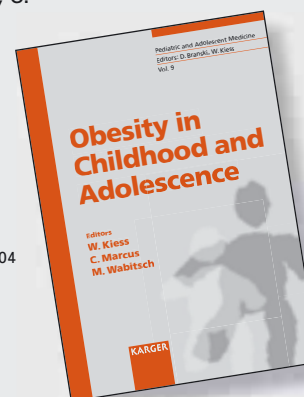

Prevention of Overweight and Obesity

Müller, M.J.; Danielzik, S.; Spethmann, C.
