

## Contents

### Foreword

Sjöbring, U.; Taylor, J.D.

### Exacerbations of Asthma and COPD: Definitions, Clinical Manifestations and Epidemiology

O'Byrne, P.M.

### Human Rhinovirus Models in Asthma

Singh, A.M.; Busse, W.W.

### Allergen Inhalation Challenge: A Human Model of Asthma Exacerbation

Gauvreau, G.M.; Evans, M.Y.

### Cellular and Animals Models for Rhinovirus Infection in Asthma

Xatzipsalti, M.; Papadopoulos, N.G.

### Modeling Responses to Respiratory House Dust Mite Exposure

Cates, E.C.; Fattouh, R.; Johnson, J.R.; Llop-Guevara, A.; Jordana, M.

### Respiratory Syncytial Virus-Induced Pulmonary Disease and Exacerbation of Allergic Asthma

Lukacs, N.W.; Smit, J.; Lindell, D.; Schaller, M.

### Lipopolysaccharide Challenge of Humans as a Model for Chronic Obstructive Lung Disease Exacerbations

Kharitonov, S.A.; Sjöbring, U.

### A Human Rhinovirus Model of Chronic Obstructive Pulmonary Disease Exacerbations

Contoli, M.; Caramori, G.; Mallia, P.; Papi, A.; Johnston, S.L.

### Animal Models of Cigarette Smoke-Induced Chronic Obstructive Lung Disease

Churg, A.; Wright, J.L.

### Animal Models of Chronic Obstructive Pulmonary Disease Exacerbations

Gaschler, G.J.; Bauer, C.M.T.; Zavitz, C.C.J.; Stämpfli, M.R.

### Fields of Interest

*Microbiology, Allergy, Respiratory System, Asthma, Pediatrics, Infectious Diseases, Virology, Bacteriology*

# Models of Exacerbations in Asthma and COPD

Editors

**Ulf Sjöbring**  
**John D. Taylor**

This volume provides an overview of exacerbation models of asthma and chronic obstructive pulmonary disease (COPD). Within this wide field the book focuses on experimental systems that mimic pathobiological processes likely to be critical in exacerbations of these conditions.

To generate insight into the mechanisms of exacerbation of pulmonary disease and to promote the discovery of future treatments, both animal models and human experimental models are described. For this update some of the most eminent scientists within the area of pulmonology could be recruited to share their knowledge of this evolving field of human medicine. Models of Exacerbations in Asthma and COPD will be of great interest to pulmonologists, allergologists, specialists in internal medicine and critical care, as well as to microbiologists, infectiologists and pharmacologists studying the response to respiratory infections.

Contributions to Microbiology, Vol. 14

### **Models of Exacerbations in Asthma and COPD**

Editors: Sjöbring, U.; Taylor, J.D. (Lund)

XIII + 146 p., 12 fig., 4 in color, 4 tab., hard cover, 2007

CHF 145.- / EUR 103.50 / USD 132.00

Prices subject to change

The book series

# Contributions to Microbiology

Series Editors: Schmidt, A. (Witten); Herwald, H. (Lund)

The past two decades have witnessed renewed concern about infectious diseases for reasons such as the emergence of new pathogens and the development of antimicrobial resistance, but also global traveling and increasing migration. This book series is devoted to the study of infective agents and the diseases they cause. Covering the fields of bacteriology, virology, mycology and parasitology, individual volumes present data from experimental and clinical investigations and discuss recent therapeutic and methodological advances. Special emphasis is given to emerging pathogens, new research approaches, and epidemiology. Infective agents relevant to veterinary medicine are also considered. Offering well-edited and stimulating material, books in this series are appreciated by a broad spectrum of readers, from research scientists to physicians.

Vol. 13

## Infection and Inflammation

Editors: Dittmar, T.; Zaenker, K.S.; Schmidt, A. (Witten)  
X + 246 p., 26 fig., 6 in color, 5 tab., hard cover, 2006  
CHF 232.- / EUR 165.50 / USD 211.00  
ISBN 3-8055-8064-9

Vol. 12

## Concepts in Bacterial Virulence

Editors: Russell, W.; Herwald, H. (Lund)  
VIII + 278 p., 27 fig., 1 in color, 7 tab., hard cover, 2005  
CHF 198.- / EUR 141.50 / USD 180.00  
ISBN 3-8055-7786-9

Vol. 11

## Prions

A Challenge for Science, Medicine and the Public Health System 2nd, revised and extended edition  
Editors: Rabenau, H.F.; Cinatl, J.; Doerr, H.W. (Frankfurt)  
XII + 222 p., 26 fig., 2 in color, 19 tab., hard cover, 2004  
CHF 178.- / EUR 127.- / USD 162.00  
ISBN 3-8055-7656-0
