Fields of Interest: Dermatology, Toxicology,
Pharmaceutics, Medical Law, Preventive Medicine,
Medical Statistics

This volume of *Current Problems in Dermatology* presents the reader with a portrait of the scientific background of the complex process of safety assessment of cosmetics as well as information on European cosmetic legislation. A practical approach to the search for toxicity data on cosmetic ingredients and a compilation of the legally required technical dossier of a finished cosmetic product as well as an in-depth analysis of the safety assessment of cosmetic ingredients performed at the EU level by the Scientific Committee on Consumer Products (SCCP) are available. The current status of 3R alternatives to animal testing and the extent to which they are implemented by the cosmetic industry and considered by the SCCP in the risk assessment process is discussed. As such, guidance is provided in relation to the manifold challenges cosmetic safety assessors are faced with in the current EU regulatory setting.

In this valuable handbook, qualified cosmetic safety assessors, suppliers of raw materials, dermatologists and pharmacists, toxicologists as well as EU officials and administrators dealing with cosmetics will find relevant information on the European cosmetic legislation, the compilation of cosmetic technical dossiers, toxicological database searches, and the availability and use of alternative methods in the field of cosmetics.

Contents

List of abbreviations

Foreword

Introduction

Chapter 1: Cosmetic Products and their Current Regulatory Framework

Introduction

The Cosmetic Products Directive

Definition of a Cosmetic Product • The Safety Prerequisite and Responsibilities • The Public Information Prerequisite • The 'Technical Information File' Prerequisite • The Annexes to the Cosmetic Products Directive and the SCC(NF)P • The Animal Testing Ban for Cosmetics and their Ingredients • Safety Assessment of Cosmetic Ingredients Under the Cosmetic Products Directive • Proposal for a Recast of the Cosmetic Products Directive

Relevant 'Vertical' EU Legislations

Impact of the Dangerous Substances Directive and REACH • Impact of the Dangerous Preparations Directive • EU Legislation on Food Additives • Impact of the Biocidal Products Directive • Impact of the Medicinal Products Directive • Impact of the EU Legislation on Detergents • Impact of the Plant Protection Directive and the EU Legislations on Medical Devices 30 • Combined Impact of Relevant 'Vertical' EU Legislations on Data Availability for a Cosmetic Ingredient

Relevant 'Horizontal' EU Legislations

Horizontal Provisions for the Protection of Animals • General Product Safety Directive • EU Legislation on Prepackaged Products and Nominal Quantities • EU Legislation on Aerosol Dispensers

References

Chapter 2: Challenges Related to Cosmetic Safety Assessment in the EU

Introduction

Relevant Features of the General EU Risk Assessment Paradigm

Overview of the Classical Risk Assessment Process • Hazard Identification and Dose-Response Assessment • Exposure Assessment • Risk Characterisation • Risk Management, Risk Communication and Risk Perception

Actual Challenges for the European Cosmetic Safety Assessor

Moving Away from Animal Testing • Urgent Need for Appropriate Exposure Data • New Role of Raw Material Suppliers • The Need for Appropriate Training • Ethical Constraints in Human Testing • Special Problems for Small and Medium-Sized Enterprises • Consumer Concerns

References

Chapter 3: Critical Analysis of the Safety Assessment of Cosmetic Ingredients Performed at the European Level

Introduction

General Analysis of Published SCC(NF)P Opinions (2000–2006)

Methodology • Number of Opinions • Ingredient Types • Success Rate • Content Comparison of Submissions Discussed in 2003 and 2006 • The Interplay between Industry and the SCC(NF)P over the Years

Analysis of Three Contentious Areas in the EU Safety Assessment of Cosmetic Ingredients

Methodology • Identity and Physicochemistry • The in vitro Dermal Absorption Study • Mutagenicity/Genotoxicity

Discussion and Conclusions

References

Chapter 4: Safety Assessment of Cosmetic Ingredients Present in Technical Information Files of Finished Products

Introduction

Database Search for Safety Information on Cosmetic Ingredients

General Considerations • Useful Data Sources • The Quest for Safety Data in Practice • Evaluation of Data Quality

Risk Assessment of Cosmetic Ingredients in Finished Cosmetic Products in the EU

Discussion and Conclusions

References

Chapter 5: The Cosmetic Technical Information File in Practice

Introduction

The Legal Requirements in Practice: a Proposal

Qualitative and Quantitative Composition of the Product • Physicochemistry, Microbiology and Purity of Ingredients and of the Finished Product • Manufacturing Method • Safety Assessment of the Finished Cosmetic Product • Name and Address of the Safety Assessor • Existing Data on Undesirable Effects on Human Health • Proof of the Effects Claimed • Data on Animal Testing

Some Practical Remarks

Proposed Framework for a TIF

Discussion and Conclusions

References

Chapter 6: The Use of Alternative Methods in the Safety Assessment of Cosmetic Ingredients

Introduction

Materials and Methods

Animal Testing and 3-R Alternatives in SCC(NF)P Dossiers

Acute Toxicity • Skin Irritation • Eye Irritation • Skin Sensitisation • Repeated Dose Toxicity Testing • Toxicokinetics (Including Dermal Absorption) • Reproductive Toxicity • Mutagenicity/Genotoxicity and Carcinogenicity • Photo-induced Toxicity

Cosmetic Animal Numbers Placed into Perspective

Animal Numbers and Timeframe for Cosmetic Ingredients' Testing • Projected Animal Numbers and Timeframe under REACH

Discussion and Conclusions

References

Chapter 7: Headlines of Safety Assessment of Cosmetics in Europe and Future Perspectives Appendices

The Transposition of Directive 76/768/EEC into Belgian Law: a Practical Example

List of Studied SCC(NF)P Opinions • List of Opinions Dealing with Multiple Substances • List of Substances Discussed in Multiple Opinions

Proposed Framework for a Cosmetic Technical Information File

The Book Series

**Well-referenced and timely reports from the most active areas of
dermatology and skin research**

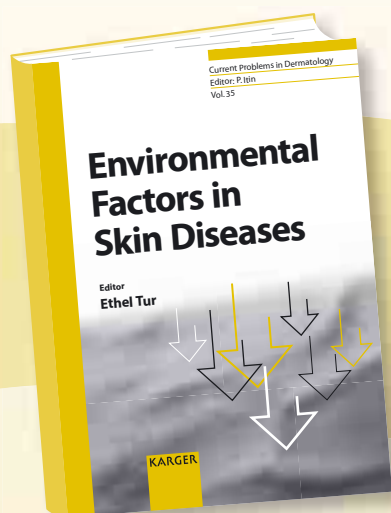

Current Problems in Dermatology

Series Editor: P. Itin (Basel)

ISSN 1421-5721 / e-ISSN 1662-2944

This series presents a selection of new ideas and infor-
mation in the field of clinical and investigative derma-
tology. Crossing the borders of skin diseases it explores
interdisciplinary strategies, linking dermatology with
immunology, allergology and other research areas.
Each volume is individually designed to provide an up-
to-date presentation of new and interesting topics in

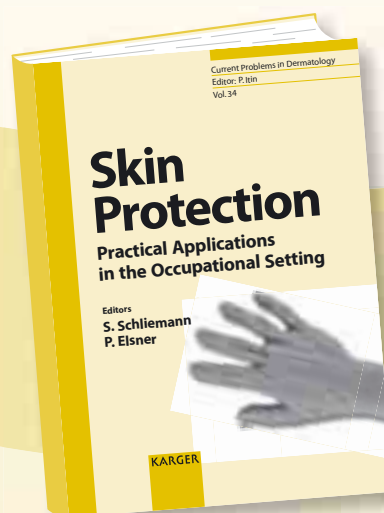

dermatology and skin research. The contributing authors
are acknowledged experts in their fields. The wide range
of topics discussed includes normal and pathological skin
conditions, the development of new equipment, drugs
and analytical techniques, and recent advances in the
treatments that can be offered to patients.
