

A concise overview

Peritoneal Dialysis

From Basic Concepts to Clinical Excellence

Editors:

**Claudio Ronco, Carlo Crepaldi,
Dinna N. Cruz**

Main Headings

- Body Composition Monitoring in Peritoneal Dialysis
- Fundamentals of Peritoneal Dialysis
- Biology of Peritoneal Membrane
- Peritoneal Dialysis Solutions
- Cardiovascular Aspects of Dialysis
- Inflammation and Nutrition
- Adequacy in Peritoneal Dialysis: Kt/V and Beyond
- Complications of Peritoneal Dialysis and Their Management
- Calcium Phosphorus, Vitamin D Receptor and Peritoneal Dialysis
- Peritoneal Dialysis as a First-Choice Treatment: Advantages and Barriers
- Peritoneal Dialysis in Special Settings
- The Present and Future of Peritoneal Dialysis

Contributions to Nephrology, Vol. 163

Peritoneal Dialysis

From Basic Concepts to Clinical Excellence

Editors: Ronco, C.; Crepaldi, C.; Cruz, D.N. (Vicenza)

*Fields of Interest: Nephrology, Dialysis;
Cardiovascular System, Nutrition,
Inflammation, Physiology, Biochemistry*

The importance of peritoneal dialysis (PD) in the therapy of chronic kidney disease has been steadily increasing. The simultaneous advancement in clinical practice and basic research has increased overall knowledge and led to significant progress in the safe and adequate application of PD. Moreover, integration with other techniques in the therapy of uremia represents an important step in the optimization of the whole program of renal replacement therapy.

Leading experts in the field have contributed to this volume, discussing topics such as the biology of the peritoneal membrane, dialysis solutions, inflammation and nutrition, PD adequacy, or complications and their management or PD in special settings. This compilation updates and expands the information on PD published in previous volumes of the series 'Contributions to Nephrology'. It represents an important source of information for beginners and experts, basic scientists and clinical physicians, students and investigators who want to have a true update on current research and clinical practice in peritoneal dialysis.
