A Matter of Wonder

What Biology Reveals about Us, Our World, and Our Dreams

Where do we come from? Is our destiny determined by the genes we inherit? Do we all see the same blue color when we look at the sky? In this book Gottfried (Jeff) Schatz, the world-renowned biochemist, gives lucid – albeit often surprising – answers to universal questions and takes the reader on a fascinating journey of discovery across the boundaries of scientific disciplines. With passion and a keen sense of wonder he draws on philosophy, cultural history and art to formulate his reflections on the mystery of life. The key to understanding life is to be found in its chemistry, and he proves that this is no dry endeavor and certainly not devoid of beauty. The result is a collection of eloquently and poetically written essays dealing with key issues in the natural sciences. It will appeal not only to scientists, but also to all inquisitive minds, regardless of educational and professional background.

Schatz, G. (Basel)
A Matter of Wonder
What Biology Reveals about Us, Our World, and Our Dreams

“A collection of extraordinary essays, reminiscent in many ways – scope, erudition, clarity, occasional whimsicality and sassiness – of Stephen Jay Gould’s essays for Natural History”
Herbert Deinert (Cornell University, Ithaca, N.Y.)

“A remarkable fusion of science and humanism”
Eugene P. Kennedy (Harvard University, Boston, Mass.)
Guidelines for Authors

Submission
Manuscripts written in English should be submitted using the online submission website at:
www.karger.com/uin
or as e-mail attachment (the preferred word-processing package is MS Word) to the Editorial Office:
uin@karger.ch
S. Karger AG
Editorial Office ‘Urologia Internationalis’
P.O. Box
CH–4009 Basel (Switzerland)
Tel. +41 61 306 1424
Fax +41 61 306 1434

The manuscripts should be accompanied by a signed cover letter addressing the points below. A signed copyright transfer of up to 20 lines (approximately 150 words). Ab-}

Conditions
All manuscripts are subject to peer review. Manuscripts are received with the explicit understanding that they are not under simultaneous consideration by any other publication. Submission of an article for publication implies the transfer of the copyright from the author to the publisher upon acceptance. Accepted papers become the permanent property of Urologia Internationalis and may not be reproduced by any means, in whole or in part, without the written consent of the publisher. It is the author’s responsibility to obtain permission to reproduce illustrations, tables, etc. from other publications.

Cover Letter
It must include statements on the following points:
1. All authors have made a significant contribution to the findings and methods in the paper.
2. All authors have read and approved the final draft.
3. Financial or commercial interest must be acknowledged.
4. The work has not already been published and has not been submitted simultaneously to any other journal.
5. The corresponding author takes on the above responsibilities with his/her signature.

Plagiarism Policy
Whether intentional or not, plagiarism is a serious violation. All definitions of plagiarism as a case in which a paper re-produces another work with at least 25% similarity and without citation. If evidence of plagiarism is found before/after acceptance or after publication of the paper, the author will be offered a chance to rebuttal. If the arguments are not found to be satisfactory, the manuscript will be retracted and the author sanctioned from publishing papers for a period to be determined by the responsible Editor(s).

Arrangement
Title page: The first page of each paper should indicate the title, the authors’ names, the institute where the work was conducted.
In addition, the following should be put on the title page:
1. Short title for use as running head
2. A list of 3–10 key words for indexing purposes is essential
3. Corresponding author: One of the authors has to be indicated as the corresponding author. The full name and complete mailing address, e-mail address, as well as phone and fax numbers of that individual to whom correspondence, proofs, and requests for reprints should be addressed, must be given at the bottom of the title page.

Abstract: Each paper must have a structured abstract (Introduction, Materials and Methods, Results and Conclusions) of up to 20 lines (approximately 150 words). Abstracts of case reports need not be structured.

Footnotes: Avoid footnotes. When essential, they are numbered consecutively and typed at the foot of the appropriate page.

Tables and illustrations: Tables and illustrations (both numbered in Arabic numerals) should be prepared on separate pages. Tables require a heading and figures a legend, also prepared on a separate page. For technical reasons, figures with a screen background should not be submitted. When possible, group several illustrations on one block for reproduction (max. size 180 × 223 mm) or provide crop marks. Electronically submitted b/w half-tone and color illustrations must have a resolution of 300 dpi after scaling. Line drawings one of 800–1,200 dpi. Figure files must not be embedded in a document file but submitted separately (for detailed instructions, see http://www.karger.com/uin).

Case Reports should include the most important clinical details and not exceed 1,000 words. One table and two figures may be included. References should be limited to ten.

Letters to the Editor must include matters of interest to urologists and not exceed 500 words.

Color illustrations:
Online edition: Color illustrations are reproduced free of charge. In the print version, the illustrations are reproduced in black and white. Please avoid referring to the colors in the text and figure legends.

Print edition: Up to 6 color illustrations per page can be integrated within the text at CHF 800.00 per page.

References: In the text identify references by Arabic numerals [1]. Material submitted for publication but not yet accepted should be indicated as [unpublished data] and not be included in the reference list. The list of references should include only those publications which are cited in the text. Do not alphabetize; number references in the order in which they are first mentioned in the text. The surnames of the authors followed by initials should be given. There should be no punctuation other than a comma to separate the authors. Preferably, please cite all authors. Abbre-viate journal names according to the Index Medicus system. Also see International Committee of Medical Journal Editors: Uniform requirements for manuscripts submitted to biomedical journals (www.icmje.org).

Examples
(b) Papers published only with DOI numbers: Theoharis TC, Boucher W, Spear K: Serum interleukin-6 reflects disease severity and osteoporosis in mastocytosis patients. Int Arch Allergy Immunol DOI: 10.1159/000063858.

Reference Management Software: Use of EndNote is recommended for easy management and formatting of citations and reference lists.

Digital Object Identifier (DOI)
S. Karger Publishers supports DOIs as unique identifiers for your work and gives all users worldwide free and full access for reading, downloading and printing at www.karger.com. The option is available for a one-time fee of CHF 3,000.00, which is a permissible cost in grant allocation. More information can be found at www.karger.com/authors_choice.

NIH-Funded Research
With the added advantage of being citation links.

Page Charges
There are no page charges for original papers of 3 or fewer printed pages (3,000 words including tables, illustrations and references) or for case reports with 2 or fewer printed pages. Each extra complete or partial page is charged to the author at CHF 325.00. The allotted size of a paper is equal to approx. 8 manuscript pages double-spaced (including tables, illustrations and references). The inability to pay charges for extra pages will not prejudice publication of the paper. This will be decided by the Editors.

Proofs
PDF proofs will be sent to the corresponding author and should be returned with the least possible delay.

E-pub First
All articles are published electronically ahead of print with a DOI number and are supplemented later with the definitive reference of the printed version. The articles become available immediately after the authors’ approval to publication, in the print version and online. Authors can influence the time of appearance by promptly returning the proofs.

Reprints
Order form and price list is sent with the pdf proofs. Orders submitted after the issue is printed are subject to consider-

Gynecologic and Obstetric Investigation

Editor-in-Chief
T.M. D’Hooghe, Leuven

This journal covers the most active and promising areas of current research in gynecology and obstetrics. Invited, well-referenced reviews by noted experts keep readers in touch with the general framework and direction of international study. Original papers report selected experimental and clinical investigations in all fields related to gynecology, obstetrics and reproduction. Short communications are published to allow immediate discussion of new data. The international and interdisciplinary character of this periodical provides an avenue to less accessible sources and to worldwide research for investigators and practitioners.

Selected contributions
- Female Gender and Reproductive Factors Affecting Risk, Relapses and Progression in Multiple Sclerosis: D’Hooghe, M.B. (Melsbroek/Brussels); D’Hooghe, T. (Leuven); De Keyser, J. (Brussels/Groningen)
- Kipspeptin, Leptin, and Retinol-Binding Protein 4 in Women with Polycystic Ovary Syndrome: Jeon, Y.E.; Lee, K.E.; Jung, J.A.; Yim, S.Y. (Seoul)
- Serum Levels of Visfatin and Possible Interaction with Iron Parameters in Gestational Diabetes Mellitus: Kaygusuz, I.; Gumus, I.I.; Yılmaz, S. (Ankara); Simavlı, S. (Ankara); Uysal, S. (Bolu); Derbent, A.U. (Antalya); Gözdemir, E. (Çorum); Kafalı, H. (Ankara)
- Characterization of Socioeconomic and Clinicopathological Features in Brazilian Patients with Vulvar Squamous Cell Carcinoma: de Melo Maia, B.; Munhoz Cestari, F.; Lavorato-Rocha, A.M.; Sant’Ana Rodrigues, I.; Baiocchi, G.; Cardoso Guimarães, G. (São Paulo); Vassallo, J. (São Paulo /Campinas); Stiepich, M.; Soares, F.A.; Malagoli Rocha, R. (São Paulo)
- Elevated Immunoreactivity against Class I Histone Deacetylases in Adenomyosis: Liu, X.; Nie, J.; Guo, S.-W. (Shanghai)
