Review

203 Tryptophan Metabolism in Allergic Disorders
Gostner, J.M.; Becker, K. (Innsbruck); Kofler, H. (Hall); Strasser, B.; Fuchs, D. (Innsbruck)

Molecules and Cells in Allergy

216 Diagnostic Value of Antigen-Specific Immunoglobulin E Immunoassays against Ara h 2 and Ara h 8 Peanut Components in Child Food Allergy
Martinet, J.; Couderc, L.; Renosi, E.; Bobée, V.; Marguet, C.; Boyer, O. (Rouen)

223 Allergic Reactions to Metamizole: Immediate and Delayed Responses
Blanca-López, N. (Madrid); Pérez-Sánchez, N. (Malaga); Aguñez, J.A.; García-Martín, E. (Cáceres); Torres, M.J.; Cornejo-García, J.A.; Perkins, J.R. (Malaga); Miranda, M.A.; Andreu, I. (Valencia); Mayorga, C. (Malaga); Canto, G. (Madrid); Blanca, M.; Doña, I. (Malaga)

231 Associations of TNFα −308G>A, TNFα −238G>A, IL-1α −889C>T and IL-10 −1082G>A Genetic Polymorphisms with Atopic Diseases: Asthma, Rhinitis and Dermatitis
Babić, Z.; Sabolić Pipinić, I.; Varnai, V.M. (Zagreb); Kežić, S. (Amsterdam); Macan, J. (Zagreb)

(Continued on inside front cover)
241 Component-Resolved Diagnosis of Peanut Allergy and Its Possible Origins of Sensitization in China
Ma, S.; Nie, L.; Li, H.; Wang, R.; Yin, J. (Beijing)

249 Genetic Variants of Thymic Stromal Lymphopoietin in Nonsteroidal Anti-Inflammatory Drug-Induced Urticaria/Angioedema
Plaza-Serón, M.d.C.; Blanca-López, N. (Madrid); Pérez-Sánchez, N.; Duña, I. (Malaga); Acosta-Herrera, M. (Las Palmas de Gran Canaria); Pino-Yanes, M.; Flores, C. (Madrid/Santa Cruz de Tenerife); Cornejo-García, J.A.; Perkins, J.R.; Molina, A.; Torres, M.J.; Blanca, M. (Malaga); Canto, M.G. (Madrid); Ayuso, P. (Madrid/Nancy)

263 Seasonal Exacerbation of Asthma Is Frequently Associated with Recurrent Episodes of Acute Urticaria
Vadasz, Z.; Kessel, A. (Haifa); Hershko, A.Y. (Kfar Saba/Tel-Aviv); Maurer, M. (Berlin); Toubi, E. (Haifa)

256 Non-IgE-Dependent Hypersensitivity to Rocuronium Reversed by Sugammadex: Report of Three Cases and Hypothesis on the Underlying Mechanism
International Archives of Allergy and Immunology appears monthly and provides a forum for publication of work from all aspects of modern allergology and immunology. Papers considered of special interest will be treated as ‘hot topics’ and every attempt will be made to publish these especially fast. The Editor-in-Chief, the Managing Editor and a team of internationally established Associate Editors competently covering all fields of allergology and immunology are responsible for the scientific quality of this international core journal. International Archives publishes original work in the fields of allergy, immunopathology and transplantation, cellular immunology, immunogenetics, immunopharmacology and immunodendocrinology, mucosal immunology and immunology of infectious diseases (see detailed instructions at www.karger.com/iaa/). Before submitting your manuscript, you are encouraged to review the detailed guidelines at www.karger.com/iaa_guidelines for specific directions as to how to get a manuscript ready for submission. If you should have any problems with your submission, or should you feel the need to submit the paper in a non-electronic form, please contact the editorial office: S. Karger AG Editorial Office 'International Archives of Allergy and Immunology' PO Box CH–4009 Basel (Switzerland) Tel. +41 61 306 1360 Fax +41 61 306 1434 E-Mail a.zumbrunn@karger.com Mailing address for courier deliveries only: Allschwilerstr. 10 CH–4055 Basel (Switzerland) Original papers: Submitted manuscripts should be fully documented reports of original research. They must describe significant and original observations to be critically evaluated and, if necessary, repeated. Short communications: These manuscripts should not contain more than 2 printed pages (i.e. 6,460 characters per page), including an abstract, essential references and not more than 3 tables or figures. Such communications should represent complete, original studies and should be arranged in the same way as full-length manuscripts. Novel Insights from Clinical Practice (formerly Case Reports): The publication space available for case reports is very limited. The journal only considers case reports with significant new insights or with an extremely unusual and memorable course. Highlighted boxes containing one or two bullet points on ‘established facts’ (what is already known) and ‘novel insights’ (what new information has been gained) are required and should be placed on the first page of the report. These should be selected so as to reinforce the novelty of the clinical observation. The manuscript should be presented with an abstract (unstructured, max. 200 words), followed by introduction, case report and discussion. Maximum 3 figures.

Review articles, minireviews, opinion articles, controversies and commentaries: Authors who wish to contribute a manuscript to one of these categories should contact the Editor-in-Chief. Minireviews should be focused, brief reports on topics of current interest. Commentaries should offer a more personalized perspective on a topic that will be of interest to the general readership. All contributions to these categories will be subject to Editorial review.

Letters to the Editor concernning work published in the journal may be submitted. They should not exceed 2 manuscript pages including one table or figure.

**Conditions**

All manuscripts are subject to editorial review. Manuscripts are received with the explicit understanding that they are not under simultaneous consideration by any other publication. A cover letter with the name, address, and telephone and telefax numbers of the corresponding author must accompany each manuscript. This letter must include a statement that affirms that all authors agree with the submission. Submission of an article for publication implies the transfer of the copyright from the author to the publisher upon acceptance. Accepted papers become the permanent property of International Archives of Allergy and Immunology and may not be reprinted in any means, in whole or in part, without the written consent of the publisher. It is the author’s responsibility to obtain permission to reproduce illustrations, tables, etc. from other publications. One of the criteria considered in reviewing manuscripts is the proper treatment of animals. In particular, the use of painful or otherwise noxious stimuli must be carefully and thoroughly justified. Papers that do not meet these criteria will not be accepted for publication.

**Conflict of Interest**

Authors are required to disclose any sponsorship or funding arrangements, including that from companies, relating to their research. All authors should disclose any possible conflicts of interest in the cover letter to the editor and at the end of the article.

**Plagiarism Policy**

Whether intentional or not, plagiarism is a serious violation. We define plagiarism as a case in which a paper reproduces another work with at least 25% similarity and without citation. If evidence of plagiarism is found before/after acceptance or after publication of the paper, the author will be offered a chance for rebuttal. If the arguments are not found to be satisfactory, the manuscript will be retracted and the author sanctioned from publishing papers for a period to be determined by the responsible Editor(s).

**Arrangement**

Manuscripts should be written in English and be as concise as possible. Be sure to display line numbers (1, 2, 3, and so forth) in the left margin of the manuscript (line numbering can be added from the Page Setup or Format menu of word processing programs). The line numbering should be continuous throughout the entire manuscript, from the title page through to the final page (i.e., do not begin numbering from 1 again at the top of each page).

**Title page:** The first page of each paper should indicate a concise title, the authors’ full names, affiliations and the institute where the work was conducted, and a short title for use as running head.

**Full address:** The exact postal address of the corresponding author complete with postal code must be given at the bottom of the title page. Please also supply phone and fax numbers, as well as an e-mail address.

**Key words:** Please supply 3–10 key words in English that reflect the content of the paper.

**Abstract:** Provide on a separate page an abstract of not more than 250 words. This abstract should consist of four paragraphs, labeled Background, Methods, Results, and Conclusions. They should briefly describe, respectively, the problem being addressed in the study, how the study was performed, the salient results, and what the authors conclude from the results.

The text should be arranged in the following sections: Introduction, Material and Methods, Results, Discussion, Acknowledgement, References.

**Footnotes:** Avoid footnotes. When essential, they are numbered consecutively and typed at the foot of the appropriate page.

**Tables and illustrations:** Tables and illustrations (both numbered in Arabic numerals) should be prepared on separate pages. Tables require a heading and figures a legend, also prepared on a separate page. For the reproduction of illustrations, only good drawings and original photographs can be accepted; negatives or photocopies cannot be used. Due to technical reasons, figures with a screen background should not be submitted. When possible, group several illustrations on one block for reproduction (max. size 180 × 223 mm) or provide crop marks. Each illustration must be labeled with its number and the author’s name. Electronically submitted b/w half-tone and color illustrations must have a final resolution of 300 dpi after scaling (final size), line drawings one of 800–1,200 dpi. Figure files must not be embedded in a document file but submitted separately (see detailed instructions at www.karger.com/iaa/).

**Color illustrations**

**Online edition:** Color illustrations are reproduced free of charge. In the print version, the illustrations are reproduced in black and white. Please avoid referring to the colors in the text and figure legends.

**Print edition:** Up to 6 color illustrations per page can be integrated within the text at CHF 960.00 per page.

**Abbreviations:** Avoid overuse of abbreviations. Introduce an abbreviation only when the same term occurs three or more times.
Contents

See the journal website for contents
The Journal of Innate Immunity is a bimonthly journal covering all aspects within the area of innate immunity, including evolution of the immune system, molecular biology of cells involved in innate immunity, pattern recognition and signals of ‘danger’, microbial corruption, host response and inflammation, mucosal immunity, complement and coagulation, sepsis and septic shock, molecular genomics, and development of immunotherapies. The journal publishes original research articles, short communications, reviews, commentaries and letters to the editors. In addition to regular papers, some issues feature a special section with a thematic focus.

Journal of Innate Immunity

Founded: 2008
Category: Basic and Clinical Research
Field of Interest: Immunology

Listed in bibliographic services, including Journal Citation Reports, PubMed/MEDLINE, Biological Abstracts, Embase

2016: Volume 8
6 issues per volume
Language: English
ISSN 1662–811X
e-ISSN 1662–8128

Impact Factor: 4.352

Selected contributions
- Long-Lasting Effects of BCG Vaccination on Both Heterologous Th1/Th17 Responses and Innate Trained Immunity: Kleinnijenhuis, J.; Quintin, J.; Preijers, F. (Nijmegen); Benn, C.S. (Copenhagen); Joosten, L.A.B.; Jacobs, C.; van Loenhout, J. (Nijmegen); Xavier, R.J. (Boston, Mass./Cambridge, Mass.); Aaby, P. (Copenhagen); van der Meer, J.W.M.; van Crevel, R.; Netea, M.G. (Nijmegen)
- Interferon-λ in the Context of Viral Infections: Production, Response and Therapeutic Implications: Hermant, P.; Michiels, T. (Brussels)
- The M1 Protein of Streptococcus pyogenes Triggers an Innate Uptake Mechanism into Polarized Human Endothelial Cells: Ochel, A.; Rohde, M.; Chhatwal, G.S.; Talay, S.R. (Braunschweig)
- M1 and M2 Macrophages: The Chicken and the Egg of Immunity: Mills, C.D. (Marine on St. Croix, Minn.); Ley, K. (La Jolla, Calif.)
Dear Librarian,

I have reviewed this publication and would like to recommend it for our library.
